

MEETING RAY

SHE / HER

INTRODUCTION

Hello, everyone. My name is Rayanna Hewitt.

I am a TRU Practicum student in my second year of study. I am very excited and grateful to be meeting and working alongside the children, educators, and families here. This journey to becoming an ECE has brought a lot of knowledge and experiences within myself. I look forward to sharing my practices and ideas with this community. Thank you for helping and being apart of my journey!

FUN FACTS

- I love the outdoors and co-creating with the natural environment
- Some hobbies I have are playing games, doing art, baking, and hiking
- Some people I find very special in my life are my partner and my 6-year-old son

TEACHING PHILOSOPHY

Some goals and practices I would like to bring to my practicum are:

Understanding the community this daycare has built, and ways to expand or build from it by connecting in other ways. Connecting with nature and natural materials. I want children to feel heard and seen and included in making decisions. Having children be seen as citizens.
